

Administrative - Internal Use Only

24 May 1973

MEMORANDUM FOR: Office of General Counsel

THROUGH : SAIC

SUBJECT : Review of the Additional Dulles Papers

REFERENCE : a. Memorandum to ExSec/MC from the Undersigned,
6 March 1973

b. Letter to Mr. Marion Johnson, National
Archives, from the Undersigned, 19 March
1973

Attached for your review and concurrence is the draft of a letter to Mrs. Allen W. Dulles stating that the screening of the additional Dulles papers has been completed as requested and that we are now returning all but a small number of items which are being incorporated into the Dulles papers in the Agency archives. By agreement with Mrs. Dulles we have also arranged for the National Archives to process in a similar manner the papers relating to Mr. Dulles' participation in the Warren Commission investigation of the assassination of President Kennedy, since these papers are outside of our purview.

CENTRAL INTELLIGENCE AGENCY

WASHINGTON, D.C. 20505

4 JUN 1973

Mrs. Allen W. Dulles

Dear Mrs. Dulles:

I am pleased to inform you that the supplementary review of the papers of your late husband, which this Agency undertook at your request, in anticipation of their donation to Princeton University, has now been completed. As expected, most of these documents relate to Mr. Dulles' personal activities subsequent to his leaving Government service, and consist in considerable part of correspondence concerning books which he wrote for publication. These materials are being returned forthwith. We have, however, identified a small number of papers which we believe advisable to incorporate into our official file of documents relating to Mr. Dulles' tenure as Director of Central Intelligence.

Our review also disclosed two boxes of papers pertaining to Mr. Dulles' membership on the Warren Commission on the Assassination of President Kennedy. Since the responsibility for these papers is outside of our purview we arranged to have them screened by the National Archives, as official custodian for the records of the Commission. This screening has also been completed and these documents are also being returned, except for a few items which the National Archives are incorporating into their holdings of Warren Commission Papers not yet available for public inspection. The National Archives are arranging to accept these materials from you as a bequest.

We have been very happy to cooperate with you in making this review and trust that it will facilitate the completion of the donation of Mr. Dulles' papers to Princeton University in accordance with his intentions.

Sincerely yours
